

**New York University College of
Dentistry**

**345 East 24th Street
New York, NY 10010**

**Instructions for Outside Candidates and Alumni Testing with the CDCA at
New York University College of Dentistry in 2022.**

Please read this document carefully!!!

1. There is a general facility fee of \$550 for non-NYU candidates. The CDCA will collect this facility fee on behalf of NYU. It is paid at the same time with your ADEX exam fees through your CDCA account. Instrument rental, which is mandatory, is included in this facility fee but is not paid by alumni.

Payment of this fee does not entitle the outside candidate to use the school facilities to practice or to screen for patients. There will be no opportunity to tour the facilities.

You will be provided with all the same instruments as NYU students. There is no instrument list. The handpieces currently used at NYU are not fiber optic, are 4 holes, and are Star or Midwest brand. You can bring your own if you like, electric or air driven, along with any other personal instruments you like to use.

2. Included in the clinic usage fee are all instruments and materials needed for the exam including but not limited to: local and topical anesthetics, needles, gloves, masks, headrest covers, bracket table covers, paper cups, patient towels, gauze, cotton rolls, plaster, stone, waxes, acrylics, and impression and restorative materials. Candidates may provide their own brands of any of the above materials if preferred.
3. All Visitors must comply with any NYU COVID-19 protocols and visitor requirements in place at the time of the exam which will be communicated in advance by the school coordinators, Dr. Andrew Schenkel, abs5@nyu.edu and Dr. Suzette Stines, sms32@nyu.edu.
4. The candidate Q&A session will be held via Zoom a few days prior to the exam, and most likely be held at 6pm (date and time will be confirmed in advance).
